- ▶ **NEMA 4X Enclosure**

- ▶ **Made in the USA**

VALUE-ENGINEERED
DOCK LEVELERS

iDock Controls
Dock Communication Systems

ADVANCED INTERACTIVE CONTROL
OF YOUR LOADING DOCK EQUIPMENT

ADVANCED 3-COLOR LIGHT COMMUNICATION
Compared to other standard green and red systems, iDock Controls utilize an additional third amber light if a fault is detected or restraint is in bypass mode.

OPERATOR INTERFACE
Using membrane dome button technology, operators can clearly feel and hear when they press a button, confirming that the equipment will begin operation.
INTERACTIVE MESSAGE DISPLAY INCLUDES:

EQUIPMENT INFORMATION
Access information about your dock equipment, including the serial number, installation date, and the door number.

SYSTEMS INFORMATION
View detailed information regarding your installed dock equipment and the options that are currently active.

MAINTENANCE HISTORY
See all of your maintenance records as well as schedule a maintenance reminder that will alert you when the scheduled day has come.
COUNTERS
View your loading dock equipment statistics, such as cycle counts, optional forklift activity, faults, and more.

INTEGRATED CONTROLS
iDock Controls integrate your installed DLM dock levelers, vehicle restraints, and other dock accessories, as well as LiftMaster door operators. Interlocking equipment controls provides a sequence of operation for your dock equipment, improving safety and energy efficiency.

Boost Productivity | Simplify Maintenance
Prioritize Safety | Tighten Security
